## **These trainers are designed to kick ass (we're not kidding).**

The synthetic leather upper is lightweight and built to withstand a good front snap kick, or even a night out with your mates.

A die-cut EVA sockliner provides lightweight comfort, while the rubber outsole give you maximum grip and durability.

## **This fleece kinda makes treadmills obsolete.**

Don't settle for an indoor run when it starts to get chilly. Put on the adidas Response DS 1/2 Zip Fleece, and get yourself outside.

This sleek and stylish pull-over keeps you dry and warm in cold weather conditions, thanks to adidas CLIMAWARM™ technology.

CLIMAWARM uses densely woven synthetic fibers to trap warm air close to the skin.

The fibers are dense enough to trap air, yet spaced far enough apart to easily allow heat-sapping sweat to escape through evaporation.

Stay snug and dry on your next outdoor run. And forget the treadmill.
